

1. What is our affiliates program?

Affiliate is someone who you refer to our website from your website ,your Ads, your Email,etc.

And then they make purchase from our website You can get paid from every sale they made. Example: If the person you refer to us buy **200usd** in our web you will get **20usd** for commission from us .

But Our program is far more than that.

We offer 3 tiers different commission and allow you to refer unlimited person in each level! That is :

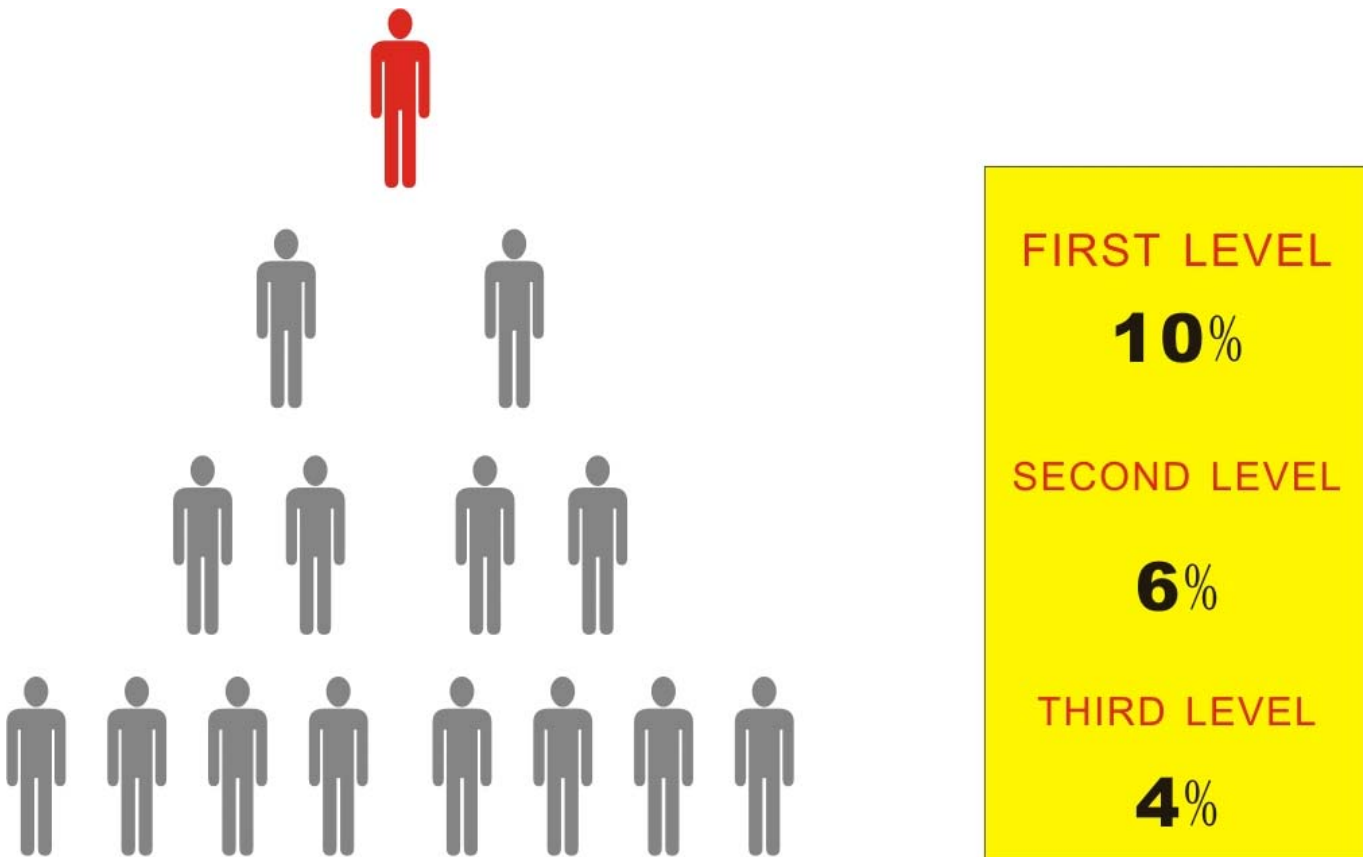

You get 10% commission from first level (Person you refer directly);

6% commission from second level (The person referred by your referrals);

4% commission from third level.(The person referred by your referrals' referrals);

There is no limitation on the numbers of person you refer in each level.

If it is still unclear, see the chart below.

Lets say if you refer two customers directly.

One person spend **200USD** on us . The another person spend **3000 usd** on us .

Then you get **20usd+300usd=320usd** from us .

Imagine the two guys you refer also refer two guys each . If they spend **500usd** each , You can get **500*4=2000*0.06=120usd**

The all total amount is **320+120=440USD** . If those guys make purchase from us three time one month. You can get **3*440=1320usd**

,Actually it is far more than those. Because the referrals is unlimited .

So you can balance ?
